### Abstract of JP2003016415

**PROBLEM TO BE SOLVED:** To make easily and efficiently discriminatble and collectable and IC memory tag where commodity information attached to / commodity main body, a package container, etc., win/loss information, information, such as an application ticket mark and an application seal, other than the commodity information can be recorded as electronic data. **SOLUTION:** A pull tab A with the IC memory tag is formed by providing a pull tab sheet 1 fitted integrally with the IC memory tag 11 in a peelable or cuttable state to a specific commodity B such as an commodity main body, a paper container wrapping the commodity main body, a plastic container such as a bottle, and a soft package container such as a pouch. The IC memory tag 11 which has been used is made easy in segregated disposal and resource collection by peeling or cutting the pull tab A off the commodity B.
